

Activities that under taken by the institution towards practice of various types of Anushalya.

Anushalya is branch of Shalyatantra, which deals with the ksharkarma, Agnikarma and Jalaukavacharan. We are conducting the ksharsutra nirmanvidhi as well as hands on training for the kshar-pratisarana, ksharsutra procedures, in which we are dealing with fistula in Ano, warts, pilonoidal sinus.

We are giving hands on training to the practitioners, who are running practices in periphery of Aurangabad city.

Agnikarma training given to the intern and P.G. students for treating joint pain, warts, sciatica and other kshudra roga. We also provide training about making shalka using for Agnikarma i.e. panchadhatu, suvarna, Tamra, Rajat, Loha.

We are also teaching detail about types of Agnikarma by madhu, ghrith, taila on mansa, sira-snyayu, asthi-sandhi and dagdhas. Types of Agnikarma-Valay (Circular), Bindu (dot), Vilay rekha(different shape), Pratisaran (Rubbing).

Raktamokshan by Jalaukavacharn and Siravedh. We are giving training about identification of Jalauka as well as breeding of Jalauka. We also provide hands on training about Jalaukavacharan in various kshudra roga, skin diseases, Dushta vrana, diabetic wounds, alopecia etc.

We also provide training about Siravedhan karma and viddha karma as well as identification of site for particular disease like frozen shoulder, Cervical spondylitis, lumbar spondylitis sciatica and many more diseases.
