Understand

No more suggestions

Not any

Give importance to students ,there is no need of any type of useless ego.All teachers are good but they should improve their learning skills .They just teach alot of things from books but they don't show anything practically. They should focus on practical learning instead of theoretical . First year bams - They should suggest students to do Yoga and gym. Then for second year students they should encourage students for searching Ayurveda book by own and writing the things that they like in reading samhitas. Third year students - encourage them for personality development and speech development and English improvement. This should be done. In fourth year they should do study only. This should be done. Your students will become extraordinary in Ayurveda. If you follow this

Thanks for your support and valuable guidance.
