SOP FOR PATHYAKALPANA---8.6.14

- **MANDA** Acc to [सु.सू.४६/३४४]

- Tandula + 14 parts of water Only supernatant liquid part is called as Manda Boiled over mandagni

- This Kalpana is prepared by using rice and water in 1:14 proportion. The rice is cooked in said proportion of water and then only water content of the prepared formulation is collected as Manda (watery portion of rice gruel). Biological properties: Laghu (light in digestion),Sheeta(cold) Biological actions: Deepana (increase in appetite) ,Pachana (increase in digestive capacity),Grahi(reduces water content in faeces) ,Vatanulomaka (maintains normal

- Few Examples for Manda: Ashtaguna manda, Laaja manda, yava manda/ vatyodana etc....
