Teachers' Feedback on Curriculum (UG)

Remarks and suggestions

No

Excellent

Adequate

NLH should be divided batchwise for field visit

No any

There will be viva exam with every term end exam

Topic to be included 1 New emerging health challenge and Ayurved medicine 2 Basic information about genetic coding, genetic modeling, chromosomal disorder 3 Revised drug preparation 4 Ayurveda vaccination pattern 5 drug study according to chemical composition study in pathology

Subjective ROTP , TTT . and practical approach should be done Regularly. Visit should be increased like . Toxicological Lab , Serum Laboratories ,Police station, Court and Advanced Forensic Laboratories.

Instead of One and half years course should be one year

Syllabus is adequate, can be elaborate in pharmacy point of view to prepare basic formulation at opd level.

One and half year course should be one year

To start OPD for Agad tantra

overall good.

Some topics should be added and some should be deleted

Satisfied for respective subject with Current Schedule...

—

The curriculum must involved management of diseases through Yoga and diet.

Topics like endocrinology and respiratory system should be included in LAQ.

Topics like endocrinology and respiratory system should be considered for LAQ.

Too many exams are there which is hectic for students as well as teachers ,it is hampering the effective teaching,as teachers are very busy in carrying exams and checking papers.Exams should be reduced.

Needs to understand holistic approach of Ayurveda which is different than Allopathic medicine which will keep faith in Ayurveda for Ayurved graduates.

Adequate

Topic based syllabus for 3rd year. It should be practical based also.

Syllabus should have more practical approach

Ple stop Allied subject

Design syllabus Very Good for Academic

Periodic exams are more than sufficient.

Most of the poisons in ayurvedic part of agad tantra does not exist. practical applications seems difficult.

Syllabus of Agad Tantra is adequate

Curriculum to be revised, Ayurvedic topics are not Practical oriented, They are to be taught as History of Ayurveda, They are not challenging, & Not logical

Not any

More importance and emphasis on kayachikitsa as syllabus of four paper is adjusted in two papers.

Add some updated points in syllabus

Reading of teachers related with subjects will betterly help the teachers to deliver good content with applied aspects to the students so that the concept and understanding by students will be good and that will generate interest amongst students.

Ok

Ekal dravya chikitsa is must for students for Clinical knowledge

Everything is perfect.

More practical approach should be there

Lab test methods commonly used needs to be included in lab practical. Above 90 % Attendance of the student must be appreciated by giving additional marks in internal assessment marks. Involvement of the students in learning can be improved by giving small activities frequently.

Some topics should be added ..

Satisfied

Nothing

Need to revise as per today's need

Good curriculum

Good...

N/A

Need to add more research oriented curriculum

Inclusion of technology in clinical department...

Satisfied with current scheduled

Number of exams are very much, more time consuming and hectic too for both students and teachers.

No any suggestion

Syllabus is adequate.

No

Guest Lecture should be arranged

Proper weightage on the ayurved and modern point should be given
