Follow up reports on the action taken And Outcome Analysis

General complains are very effectively solved by our concerned faculties.

Some of the complains are

Attendance of the students: We usually call parents and make them aware of their child's attendance if it's very less. Parents Teachers association organized Parent Student- Teacher's Meeting on 13/04/2024 of First Year B.A.M.S.(Apotikar Batch) (2022-2023) for discussing about academic performance of slow learner students with their parents. Total 28 Parents with their wards attended the meeting. Overall, all the students (Mentees) are been taken care of by the Staff (Mentors) and respective staff keeps the respective wards performance updated to the parents by telephonic conversation.

Mess Issue: If there is food problem related with quality, then we do enquiry about it and warn the mess manager to maintain the quality of the food with the permission of higher authority. Regular surveillance is done in Mess by the in charge for maintaining the standards of kitchen and hygiene and quality of food.

Hostel Issue: The hostel issue is solved by discussion with the hostel rector and concerned committee members, regarding water, cleanliness, discipline etc.

Performance of the students: We usually keep updated the Parents regarding the performances of their child after every exam and sometimes we include their suggestions also in exploring their performances.

Classroom Issues: If there is the issue that voice of the teacher is not audible then we make the arrangement for the mic system, Smart Boards are used in classrooms for applying various teaching tools and if any problem related to it then we inform to higher authority to resolve it. Air conditioners are available in classrooms to maintain the comfort level during studies and if any issues related to it we are informing to higher authority for its resolution.

Health Issue: We usually inform parents regarding any health issue of their child. Sometimes we even do counselling for some students who are more homesick or who gets depressed very easily. Sometimes we even treat them with help of medicines but we talk with parents first and then start treatment with their permission.

Official issue: We inform our office superintendent sir and sort out that problem.

Extracurricular activity: We urge parent to boost up their child for participating in cultural program and sports also.

Yoga Participation: We boost up the students and also parents so that they should admire their child yoga performances.

Educational trips: We usually call parents before taking students with us for educational trip.

Outcome analysis

- 1 Overall Attendance of the student is increased because we take meetings with parents as and when needed to keep them aware of their wards.
2. Overall Academic performance of the students increased because of improved study habits, increased motivation, better understanding and learning style, development of self-discipline.
3. Students and parents are satisfied by quality of food, hygiene maintained in mess and its prompt working according to the standard protocol.
4. Students and parents are satisfied by the safe communication channels between security, hostel in charge, staff and students. The residents are satisfied by issue resolving rate within specified timeframe hence more and more students prefer to live in hostel.
5. Because of techno sound classrooms, collaborative learning, effective teaching methods, supportive learning environment and parental involvement students' performance is increased overall.
6. As we are taking care of our students health, we are able to achieve good academic performance, improved social relationship, increased productivity, better mental health and overall wellbeing of students and this is also linked with parents satisfaction.
7. Parents satisfied with ambience of the college, its infrastructure, food quality, teaching, overall development of child.
