Title of Best Practice: Ayurvedasya bhasha

Context

Sanskrit is the language that truly reveals the secret of yoga and Ayurveda.

The SSP series will make learners work adequately in Sanskrit and also enable them eventually to read & comprehend.

The stated training program is the project of Sanskrit promotion foundation and is supported by ONGC - CSR .

Objectives

- To implement designed Sanskrit language program for BAMS UG & PG students.
- To make Sanskrit language student friendly by minimizing number of grammatical mistakes in writing and speaking.

Practice

1. The institute has evolved a intense teaching Programed called 'Ayurvedasya bhasha 'for first UG&PG students conducted by Samhita Siddhanta & Sanskrit dept of the institute.

2. Department provides students with videos, quizzes and set of 6 books.

Evidence of Success

Number of students have registered and are actively participating.

Problems Encounter

The purpose of program is to create a learning environment in which students are provided with variety of resources to become competent users. However, the assessment of the use of resources in academic institution is complicated. Administrators need to ensure the use of the resources. Further, it is difficult to assess whether students use these resources genuinely.
