Activities regarding Nurturing of Creativity among students

Sharir Rachana (Anatomy)

Title – Lumen costing of goat lung

Name of Guide - Dr. R.R. Jape

Dr. S.S. Bhagwat

Date of starting project - 16/3/15

Date of finishing the project - 24/3/15

Aim & Objective - To see the branching pattern of the bronchus

Materials – Goat Lung, silicon, KOH, Heparin, silicon pushing gun, burner, sclalpels

Method – specimen of fresh goat lung, wash the lung with heparin and water, remove the pleura from the lungs, blow the air on the lung through balloon, then push the silicone Gel in the lung through with the help of silicone gel gun, then kept this specimen in to 10 % KOH for dissolving the lung Tissue for 1-2 hr

Then kept this specimen in boiling water for 2-3 hr.

Branching pattern of the bronchus is seen

Observation - Division of bronchus and its subdivision is seen whole bronchial tree pattern is observed

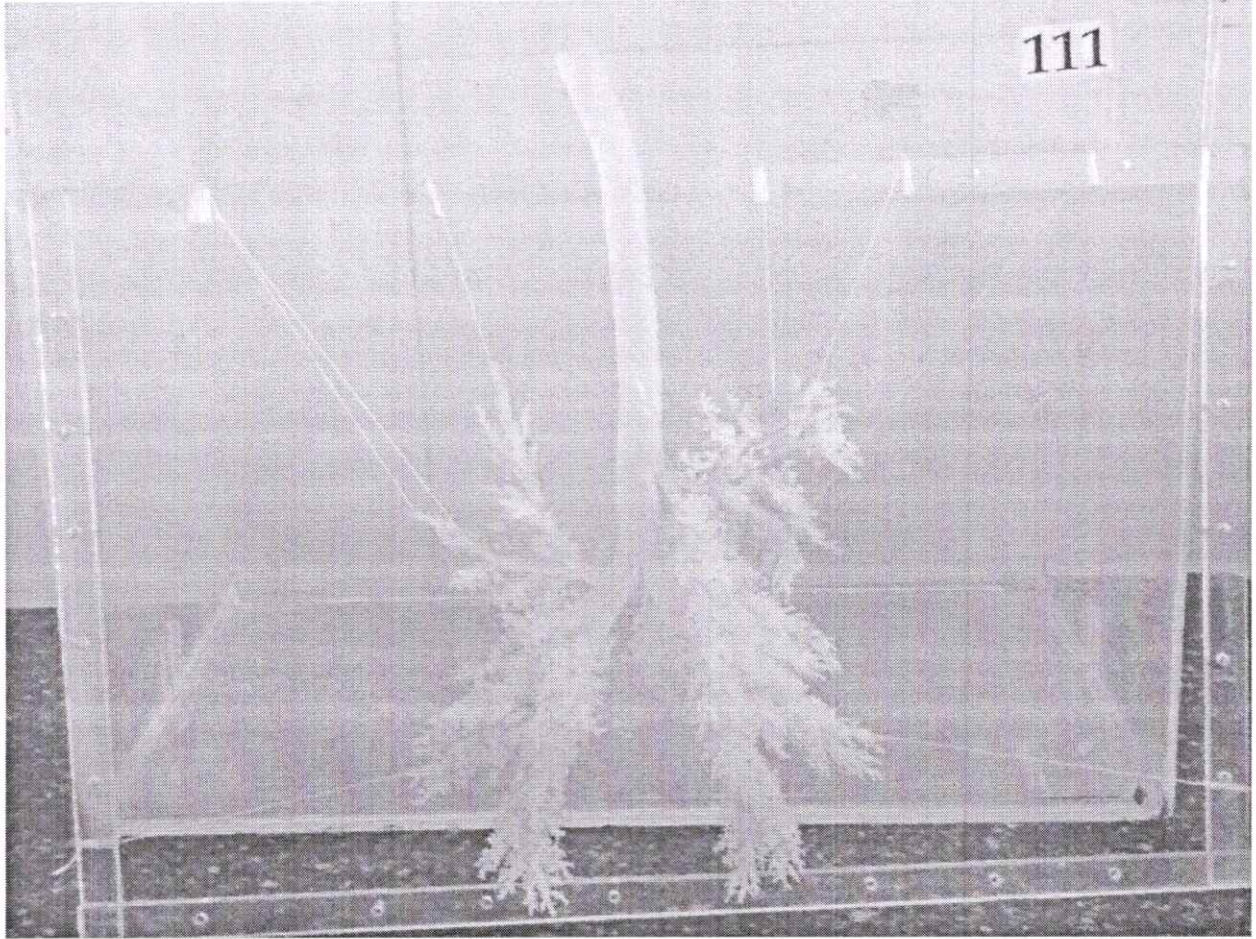

Conclusion – Bronchus tree pattern is easily understand by the project.

Sanskrit teaching is done in such a way that Students are able to apply their Sanskrit knowledge for understanding Samhita properly. Ex. Project made by students DOSHA DHATU MALA SHABDA RUPAVALI.

ROGNIDAN DEPARTMENT – INNOVATION AMONG THE STUDENTS

In our Rognidan and Vikruti Vidnyan Department students are asked to prepare charts, tables and collect images from various online sources as websites. Students collect data from various websites, books, journals, research papers. This increases their interest in the subject and promotes creativity and innovation. It is also asked to submit the data serially in group, which enhances their team work.
