### 2.6.4 Follow up reports on the action taken and the outcome analysis

General complaints are very effectively solved by our concerned faculties.

Some of the complaints are

**Attendance of the students:** We usually call parents and make them aware of their ward's attendance if it is very less.

**Mess Issue:** If there is food problem related with quality, then we do enquiry about it and ask the mess manager to maintain the quality of the food with the permission of higher authority.

**Hostel Issue:** The hostel issue is solved by discussion with the hostel rector and concerned committee members, regarding water, cleanliness, discipline etc.

**Performance of the students:** We usually keep the Parents updated regarding the performances of their ward after every exam and sometimes we include their suggestions also in exploring their performances.

**Classroom Issues:** If there is the issue that voice of the teacher is not audible then we make the arrangement for the microphone system.

**Health Issue:** We usually inform parents regarding any health issue of their child. Sometimes we even do counselling for some students who are more homesick or who get depressed very easily. Sometimes we even treat them with help of medicines but we talk with parents first and then start treatment with their permission.

**Official issue:** We inform our office superintendent and sort out that problem.

**Extracurricular activity:** We urge parent to boost up their ward for participating in cultural programme and sports also.

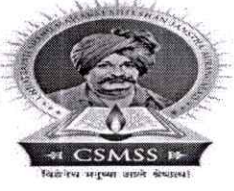

**Yoga Participation:** We boost up the students and also parents so that they should admire their wards yoga performances.

**Educational trips:** We usually call parents before taking students with us for educational trip.
