8.1.1 Integration of different systems of health care in the teaching hospital.

Since the C.S.M.S.S. Ayurved Mahavidyalaya, Rugnalaya is treating patients of acute and chronic illness like CKD, Cirrhosis of the liver, Autoimmune disease, Ulcerative colitis, Arthritis, Ascites etc. Many times it is required to manage such patients, for that the institute is integrated with the other system of health sciences like conventional medical sciences, Yoga, Physiotherapy and special Panchakarma unit etc.

The institute plans and conducts Yoga sessions for the patients who are availing treatment in the hospital.

These sessions includes the meditation therapy, Yogasana, Pranayama which are beneficial for the recovery of the patients who are availing the treatment in the hospital. Qualified Yoga instructor is available for conducting these sessions. NSS (Rashtriya Seva Yojana) unit of the institute conducts awareness programs for nearby rural areas.

Institute has full-fledged Physiotherapy Unit for adult and pediatric patients with availability of qualified physiotherapist. For the patients suffering from Arthritis, Cerebro vascular accidents, Musculoskeletal disorders and many Neurological conditions.

Institute has provision for handling emergency medical treatments. Expert physician and surgeon of modern medicine (Allopathy) are available for handling emergency conditions like Hyperglycemia, Uncontrolled Hypertension, Acute conditions and various emergencies. Well-equipped ambulance along with trained staff in basic life support is round the clock available in the campus for facilitating quick transfer of the patients who has developed life threatening medical condition.

The Rugnalaya is having well equipped radiology department with facility of non-obstetric U.S.G and digital X-ray unit with Radiologist.

The Ayurved Mahavidyalaya, Rugnalaya is having M.O.U.s with various multispecialty hospitals.

Integration Policy

Purpose-

Creating the platform for issues, challenges and opportunities arising in the field of traditional medicine.

Scope-

This integration policy is applicable to C.S.M.S.S. Ayurved Mahavidyalaya, Rughnalaya.

Policy-

Institute has the policy to provide better diagnostic, treatment facilities and higher quality of health care services to the patients

Procedure for integration of Institute

The meetings regarding integration policy will be conducted with consultants. Important points regarding inclusion of health care systems other than Ayurveda will be discussed. During which the treatment protocols to support traditional health system will be developed with the help of consultants of all clinical departments.

The ideal treatment procedure protocol for the particular disease will be developed. The review on the developed new protocols will be taken through administrative department.

The Principal will sign the final protocol of integrated treatment. Then it will be circulated to all the concerned departments

Standard operating protocols will be strictly followed by the
