Activities on the occasion of NATIONAL BLOOD DONATION DAY 2020
(GUEST LECTURE and ESSAY competition)

Organized by: DEPARTMENT OF ROG NIDANA & NSS UNIT,
C.S.M.S.S. AYURVED MAHAVIDYALAYA,
Kanchanwadi, Aurangabad

Date: 05/10/2020

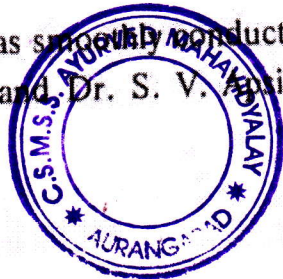

To,
The Principal,
C.S.M.S.S. Ayurved College,

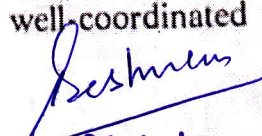

Respected Sir,

With your permission and support activities on the occasion of NATIONAL BLOOD DONATION DAY were organized by Department of Rog Nidana & NSS Unit, Lecture on Blood Donation was organized on Date 01/10/2020 at 02:15 pm (Meeting ID 651-046-213). Expert Talk was given by Dr. Mayur Bhosale M.D. (Pathology). In the beginning Dr. D. J. Amale, HOD Dept. of Rognidan briefly introduced the importance of celebration of National Blood Donation day and the activities on this occasion. Later Dr. B. D. Dharmadhikari introduced the speaker.. Total 98 numbers of attendees participated in this lecture.

Speaker Dr. Mayur Bhosale explained the topic in detail. He covered all the points related to Blood Donation. He also highlighted special references about plasma donation related to COVID-19. He focused on the complexity of the topic and tried to make it most simple for under graduate students. Right from beginning to the end language of the speech was very easy to understand by the students with effective PPT presentations.

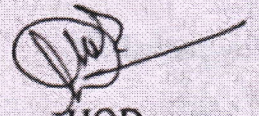

The lecture was smoothly conducted. Dr. A. M. Deshmukh , Dr. M. D. Gaikwad , Dr. H. G. Panchade and Dr. S. V. Bhattingekar well coordinated the overall online teaching

Principal
C.S.M.S.S. Ayurved Mahavidyalay

What happens to your blood donation

- Donation:** A pint of blood is drawn from a volunteer donor. Blood is transfused to patients in need. Just one blood donation has the potential to save three lives!
- Collection:** Blood is collected into a sterile bag and marked to identify its type.
- Transport:** Units are transported to the nearest LifeSource facility and processing lab.
- Processing:** Blood is processed in a specially equipped lab that separates it into different components.
- Components:**
 - Red Blood Cells:** Contains hemoglobin, a protein that carries oxygen throughout the body. Used to treat patients with anemia or blood loss due to trauma or surgery.
 - Plasma:** Contains a protein called to treat shock and burn patients. Used to treat patients whose blood does not clot properly.
 - Platelets:** Crucial in helping blood clot. Patients with low platelet levels often suffer from bruising and bleeding.
- Storage:** Blood products are stored for transfusion. The shelf life of blood is limited.
 - Platelets expire in 5 days.
 - Red blood cells expire in 42 days.
 - Plasma can last up to one year.
- Transfusion:** Local hospitals place orders for blood products based on their needs, which are filled and delivered by LifeSource.
- Testing:** Blood is tested to ensure that it is safe for transfusion.

Pathogenesis of HIV-1 infection

- The initial infection starts in mucosal tissues, involving mainly memory CD4+ T cells and dendritic cells, and spreads to lymph nodes
- Viral replication leads to viremia and widespread seeding of lymphoid tissue. This corresponds to the early acute phase of HIV infection
- The viremia is controlled by the host immune response, and the patient then enters a phase of clinical latency.
- During this phase, viral replication in both T cells and macrophages continues unabated, but there is some immune containment of virus
- There continues a gradual erosion of CD4+ cells, and ultimately CD4+ T-cell numbers decline, and the patient develops clinical symptoms of full-blown AIDS.

Subject : Letter of Appreciation.

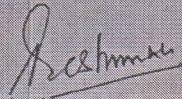

Dear sir,

I would like to extend my gratitude towards you for delivering an informative and thought –provoking lecture as guest speaker on “Biomedical waste management” in transitional curriculum program of first BAMS students of our college.

It was held on 7th April 2021 at ‘Rajashri Shahu’ Auditorium of CSMS Ayurved college, kanchanwadi Aurangabad. It was really a superb presentation and all the students got benefited from your views on the subject.

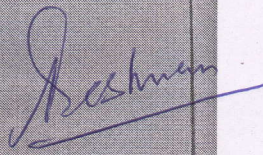

Thanking you... With Warm Regards,

(Dr. Shrikant G. Deshmukh)
